

# In the News

**June 1 – 30, 2011**

John Jay College faculty, staff, students and alumni were featured, quoted, cited and/or mentioned in 822 articles that appeared in national and major city print media outlets, online news services and blogs.

Please note this is only a sampling of print/online coverage. It is based on news clippings obtained through Cision Media Service, Lexis/Nexis, and Google that primarily search top media markets. Since we do not subscribe to a media monitoring service for television/radio coverage, those mentions are based solely on internal records.

Further note, blogs are now included in this report since many have become recognized media sources and an important part of viral marketing.
